

MISSION STATEMENT

Life Training Associates is a fully insured educational organization established in New Jersey that provides training for emergency services along with education for the public looking to gain insight into potential life saving skills.

We provide training for fire departments, hospitals, doctor's offices, veterinarians, and numerous other businesses and first responders.

We firmly believe that our team's education and experience gives us an edge over many "standard" training companies.

Classes are offered 7 days a week, 24 hours a day. We feel confident that we can provide solutions to meet your education needs.

“TRAINING THAT ONE DAY COULD
SAVE A LIFE”

Michael A. Azzarello
(Lead Instructor; Senior Partner)

Michael A. Azzarello founded Life Training Associates for the purpose of providing knowledge that could one day become a life saving skill. His vast knowledge includes a Bachelor of Science degree in Biology along with advanced education in Health and Safety.

Also, Michael has years of practical experience in areas such as Firefighting, Emergency Medical Services, Law Enforcement, and Veterinary Medicine.

Additionally, he has instructed formally in a college setting, educating students not only in human health but animal health as well.

Some of Our Courses

(A complete list can be obtained by calling to speak with our trained staff)

• BLS HEALTH CARE PROVIDER COURSE (CPR)

- Designed to provide a wide variety of healthcare professionals the ability to recognize several life-threatening emergencies, provide CPR, use an AED, and relieve choking in a safe, timely, and effective manner.
 - Course Length 4.5hrs

• FIRST RESPONDER

- Designed for Fire and Police personnel, Emergency Response Teams, and Athletic Trainers. Some of the courses taught are anatomy and function of the human body, lifting and moving, patient assessment, splinting, collaring and backboarding, medical, behavioral, and pediatric emergencies, and other related topics.
 - Course Length 40hrs

A CERTIFICATE WILL BE PRESENTED UPON COMPLETION OF EACH COURSE

• BLOODBORNE PATHOGENS

- Explains safe work practices for employees who work with human blood or tissue. It covers the definition of blood borne pathogens, protection from exposure, spill cleanup, and is required for anyone working with human blood or tissue.
 - Course Length 4hrs

• PET FIRST AID/CPR

- This program concentrates on basic first aid care along with CPR for the pet owner or first responder. It is not intended to replace veterinary care, but rather to instruct on how to save a pet's life during an emergency.
 - Course Length 4hrs

• INCIDENT RESPONSE TO TERRORIST BOMBINGS (IRTB)-Awareness

• PREVENTION AND RESPONSE TO SUICIDE BOMBINGS (PRSB)-Awareness

• WMD Radiological/Nuclear Awareness course

• WILDERNESS EMERGENCY CARE

• AKC Canine Good Citizen Training and Exam
